

CAF Spring Meeting at the field. 13 April 2:00 PM

25 members present, 55 degrees. Very windy with random sun.

The meeting was held in an open discussion format

- Andy recapped things accomplished: mower was maintained and should be back this week; Richard Larson repaired the shed; Jim Murdock started our web page and will be the web master.
- Fall minutes were approved.
- Chuck presented the financial statement and talked about Members First again applying credit to our account incorrectly. Chuck has made it correct. They were approved.
- Spring field maintenance was discussed. **We will have a workday the 19th, Saturday at nine, to roll the field and put in tail anchors. We will also remove the barrier cloth and re mulch the pavilion. Come and help if you can.**
- A motion to again weed and feed (\$300) was made and passed by members now including the extension for an additional fee. Probably \$200. Grand View Lawn does it when it is the right time to do it.
- We have a new wind sock to replace the current one. Andy will install it.
- We will spruce up the shed with white landscape stones which Joe Hower will place with assistance of other members.
- We will spend up to \$250 for Anthony Ferretti to build a new shed ramp.
- Summer events were discussed and picnics will be 1 June and 6 July. We may try to do some fun flying competition at one or both of the picnics,
- Joe announced the 4th annual Swap Meet for 30 August. It will be in the AMA calendar for two months (\$20). Club membership help is requested. Let Joe know.
- Joe also talked about the Christmas party. It will be held 13 December at Brothers on Old Gettysburg Pike. Individuals can order off the menu and it is BYOB.
- No old business was brought up.
- Andy will close the field Memorial Day because the Blue Angels will be in an air show at Harrisburg airport (Middletown).
- We may again have movie nights which will be planned on a play it by ear basis with email notification. Please respond if you will be attending.
- It was suggested that we put a larger CAF sign on the north side of the shed. Tony Miscavige will look into design and cost and get back to the club.
- The meeting ended at 2:38.
